

CANOPY

ATLANTIS G-GUTTER CANOPY - SERIES 2

FenWall's Atlantis G-Gutter Canopy is a Pre-Engineered water-control Canopy constructed from an integral "G" shaped gutter main frame for optimal water management with internal structure & tie-backs for lasting support and rigidity. In addition, the Atlantis Series 2 adds a 6" self-mating-pan deck for extra rigidity for longer projections. Standard flashing between the Atlantis and the structure.

The Atlantis Series Canopies fasten quickly to nearly any structure and provides immediate and economical architectural enhancements to any building. The Atlantis is available in your specified style, color and design options for recognizable and consistent branding for one or many locations. Contact FenWall today for more information.

OPTIONAL ACCESSORIES

- Gutter Options
 - 6" and 8"
- Bottom Deck Options
 - Ventilated
