FenWall Announces the Launch of Ceraclad South

Ceramic-Coated, Fiber Cement Siding Supplier

Tampa, FL - August 13, 2020: FenWall is proud to announce its partnership and launch of Ceraclad South. Ceraclad South is a National Supplier of ceramic-coated, fiber cement siding systems that are engineered for commercial and residential buildings. The system's proven technology allows for exterior walls to breathe which prevents the formation of allergens and increases your building's life-expectancy. The end result is a high-performance wall assembly that provides a long lasting, beautiful façade with low maintenance and upkeep.

Ceraclad South's exterior siding system is available in a wide variety of colors and textures, including Contemporary Smooth, Textured Stucco, Zen Garden, 8-Reveal, Cast Stripe, Fiotto, and Rustic Wood. Whether your project requires a wood alternative look, a modern and chic feel like stone or slate, or a multi-dimensional façade with varying textures and finishes, the Ceraclad South system is the most cost-effective solution. The proprietary ceramic coating provides superior weather resistance and aids in overall color retention and longevity.

Ceraclad South provides complete installation packets to your jobsite including panels, accessories, hardware, and installation instructions. "We take all the guesswork out of the install," said Joe Muraco, President of Ceraclad South. All materials and products are individually packed and marked to help you deliver a fast and simple install.

Ceraclad South makes the design, procurement, installation, and maintenance of your project simple. Visit www.ceracladsouth.com for more information including details, specifications, colors, textures, and typical install guides.

###

About Ceraclad South:

Ceraclad South's Fiber Cement Siding is a composite material that provides low-maintenance, long-lasting exterior solutions. Our mission is to deliver superior cladding solutions that are attractive and affordable and create a healthy living environment.

About FenWall:

FenWall designs, engineers and manufactures a multitude of architectural products including Sun Control, Railing, Roof Screens, Utility Gates, Storefronts, Curtain Wall, Entrances, Restroom Partitions & Accessories, Panel Systems, ACM and more. Our products are utilized nationally and internationally and our clients include multi-location national chains to one-off commercial construction projects and the general contractors and subcontractors who build them. Along with turn-key manufacturing and finishing, FenWall offers a host of raw material products made available to contractors and fabricators.
